

FRANK'S custom Shoe-fitting

Hey Frank,

I've been thinking about how much you and your staff have helped me stay on my feet and I figured I'd send a response to say thanks!

So here goes:

My name is Travis. I'm a firefighter and I came to Frank to see if I could solve my lower back pain. He helped me with an inexhaustable patience that's pretty tough to find these days- and I'm a very picky customer. After quite a bit of trial and error he got me the right boots and Superfeet inserts to help fix the problem. When my daughter was born I decided to get healthy and back into shape to be the best dad I could be. Frank and his crew helped me every step of the way to find me the right running shoes. I love these new Inov8 Road sneakers. I'm running more than ever now in Spartan Races and other adventure race events. Frank is my "go to guy" when it comes to footwear. Thanks, Frank!

Sincerely,

Travis Boroden
